TrapMaster Disposable Dust Trapping Pads

Two-Sided Air-Layed Non-Woven Pad with an Open Weave Construction

- Proprietary adhering agents trap more dust, dirt, hair and lint deep into the web structure
- 4x the tensile, tear and elongation strength through innovative design
- Disposable pad controls hygiene and potential spread of germs
- Made in USA with recycled fibre for maximum sustainability
- Ideal for healthcare and clean room environments; will not shed fibres like other sheet-type products
- Two widths give you choices for best matching of equipment
- Perforated in 6" segments to give you more control over usage
- Use TrapMaster as part of your standard mop assortment
